

Leadership Game – Classic Edition - Simulation with personas

DESCRIPTION

The Leadership Game is a fun, yet challenging experience designed to help your students understand and experience core leadership principles and values.

Through this game, they will be able to raise the leadership awareness and introduce the timeless leadership principles that will bring about positive change through communication and connection!

In order to increase the experience and exchange and not be limited by the personal experience of the students, we will give each student/group a description of the simulated company, as well as a persona to enact. These personas will represent a mixture of leadership role, personality types, levels of ethics as well as cultural backgrounds.

It includes a remote session to discuss the leadership understand of the students, a two-hour Leadership Game session and a debrief session where the students share their learnings of the simulation, as well as a Q&A.. It can accommodate maximum 12 participants or teams in one session.

OUTLINE

This 3-4-hour fun, interactive and practical game as a workshop uses powerful questions, discussions **that will complete the understanding of leadership by a partial, simulated experience.**

It consists of:

- A one-hour meeting to discuss the current understand of the student on the topic of leadership, management and communication
- Two-hour Leadership Game with your team (maximum 12 people/teams)
- Lessons learned debrief by the students on the exercise
- Q&A on topic of leadership

TOPICS

The following topics are covered in the leadership game:

- Leaders
- Organisation
- Personal Leadership
- Followers

In the form of individual answer, discussion, sticky note, debate, discussion by pairs.
